I understand the militia is only to protect the lives of our people, and I care nothing about the tax.—Press and Times of March 5th.

We have some doubt as to whether such a letter was ever written by any cation of this place. One DAVIDSON—Douber "so-called"—is the only person we believe, who has ever refused to sign a potition to keep the County from leing taxed and outraged by the many leing taxed and leing taxed and leing to leing taxed and leing to leing taxed and outraged by the many leing taxed and leing taxed brought here. But that such a tester excess the set there is and it not be known whom they were magistrates and prosecute them before magistrates and prosecute them here is the first time that it was ever intimated that any "prominent" citizen of Maury County and to the country and to me; not doubting the honesty of purpose of any "prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County and to me; not doubting the honesty of purpose of any prominent" citizen of Maury County are there only to assist the civil officers, and when the civil officers, and when the civil officers drive from the country, you will not onger have the militia. Out of the county having any claim to respectability—has been active in trying to prevent the enforcement of Amrital law and presence of the Militia; and is spectability—has been active in trying to prevent the enforcement of drartial law and presence of the Militia; and is shown by the further fact that the the "peace officers" of the county—all Radicals and elected by Radicals—embracing the Circuit Judge, Att'y General, Sheriff, &c., whose sworn duty it is to execute the laws, and who are better prises to the true condition of the county in this regard than any one, or all others could possibly be, have unitedly testified as to the folly and madness of this militia movement. In view of these facts, how indescribably base must be the man, if there is such, who could have written the letter in question. He has both the cowardly malice of the assassin and the vulgar cupidity of the common thief. If there is one so base in our midst, let every honest

Every officer in the country will testify that not one of them has ever been resisted in the execution of his duties, unless by a criminal whom he was attempting toarrest, which has been the case since crime has been the control of public affairs, empty treasuries and utilimate bankruptcy have followed. Or will yet follow, as inevitably to do theirs.

A Southern exchange states that besides this enterprise there are several other barge cotson factories being built in South Carolina, several in Georgia, three or four in Alabama, as many in Mississippi, and that even Florida and Texas are moving in the same direction.

It is noteworthy that of the men selected for the new Cabinet not one of them has achieved the distinction of a place in "Appleton's Encyclopedia," or in the latest could not tell how odious he is.

He stated that he had no animosity

In the first encounter between Congress and Grant the latter came of "second best." He thought Congress would do his bidding in regard to Stewart, but he found himself slightly mistaken.

The House of Representatives Tuesday passed a bill repealing the tenure-of-office law, by a very large majority. Messra.

Arnell Maynard, Stokes and Tillman, of this state, voted against the repeal. They are afraid to trust Grant, and yet with this recommunity, and only wanted the laws enforced.

He have taken except some beguns and only wanted the laws enforced the laws enforced. He asserted that the resolutions which the own mittee had adopted were not satisfactory to him, because they did not say "We each and every one of us, do pledge ourselves to ferret out and bring to justice the law-breakers in our midst." He spoke of the restitution of property, but no one knows of any that has been taken except some beguns and chickens which his militia baye taken. He intimated that the community, and only wanted the laws enforced.
